

Electricity, with all my heart

- Electrical model allows localizing performance of individual muscles or small groups from multiple measurements on the skin

Jose Bohorquez, *An Integrated-Circuit Switched-Capacitor Model and Implementation of the Heart*, Proceedings of the First International Symposium on Applied Sciences on Biomedical and Communication Technologies, 25-28 October 2008. DOI 10.1109/ISABEL.2008.4712624
